What We Do For You

Booking ground transportation services has been a long-standing challenge, the inability to access suppliers online or to connect them to independent reservations systems has been all but impossible.

We certainly don't claim to have all the answers to help ease the pain points in the ground transport market. But what we do have, is a Channel Manager solution that connects independent travel reservation systems to their suppliers and provides their suppliers with an online presence.

ONE API

Our API solution means transport bookings are made in your environment, as part of the PNR.

STREAMLINED WORKFLOW

With automated content, you can compare pricing, availability, and book in one simple process.

NATIONAL DISTRIBUTION

Access operator inventory from anywhere in South Africa, 24 hours a day, seven days a week.

INSTANT PRICING

Using the Google Maps integration ensures you get exact and instant pricing comparisons from operators able to service the route selected.

DUTY OF CARE

Easily manage compliance and ensure only approved suppliers are used, simple to add, suspend or remove.

Why Choose Us?

Complete and powerful technology with benefits that add value to any travel process.

Comparative Quotes

Save money and time by comparing multiple quotes in real time.

Booking Management

Book and manage reservations all in one place.

Vetted Operators

Only book operators who have been approved by you or your clients. We source and vet, then the client approves.

Added Value

Book extras like stop on route, baby seats, trailer or extra time, at the time of making a booking.

Improved Service

Faster response time for agents and 100% operator accuracy with system driven shared content.

A single technology that allows transport operators to participate and a marketplace for travel buyers to find previously inaccessible suppliers.
